MATERIAL SAFETY DATA SHEET

SECTION 1: IDENTIFICATION

Product identifier: HONDA POWER STEERING FLUID

Product Use: Power Steering Fluid

Chemical Family: Mixture.

Manufacturer part no.: M2714HC

Supplier’s name and address: Radiator Specialty Co., of Canada

1711 Aimco Blvd.
Mississauga, ON, Canada
L4W 1H7

Information Telephone #: (905) 625-9117 (Monday - Friday, 9AM - 5PM)

24 Hr. Emergency Tel #: 613-996-6666 (CANUTEC)

SECTION 2 - HAZARDS IDENTIFICATION

Classification:

WHMIS information: This product is a WHMIS Controlled Product. It meets one or more of the criteria for a controlled product provided in Part IV of the Canadian Controlled Products Regulations (CPR).

WHMIS classification:

Class B3 (Combustible Liquids);
Class D2A (Materials Causing Other Toxic Effects, Very Toxic Material);
Class D2B (Materials Causing Other Toxic Effects, Toxic Material).

Labeling: Phrases recommended to appear on a supplier label, can be found in Section 15.

WHMIS symbols required on a supplier label:

Emergency Overview:

WARNING! Combustible liquid and vapour. Harmful if inhaled. May be harmful or fatal if swallowed in large amounts. May be an aspiration hazard. May cause skin irritation. May cause respiratory irritation. Contains material which may cause cancer, based on animal data.

POTENTIAL HEALTH EFFECTS:

Signs and symptoms of short-term (acute) exposure

Inhalation: If product is heated or mists are formed, inhalation may cause irritation to the nose, throat and respiratory tract.

Skin: May cause mild to moderate irritation.

Eyes: May cause mild eye irritation.

Ingestion: May cause irritation of mouth, throat, and stomach. Symptoms may include pain, headache, nausea, vomiting, dizziness, drowsiness and other central nervous system effects. May be an aspiration hazard. Aspiration into the lungs during swallowing or subsequent vomiting may cause chemical pneumonitis, which can be fatal.

Effects of long-term (chronic) exposure

Prolonged or repeated contact may cause drying, cracking and defatting of the skin. Overexposure to sprays or mists may cause chemical pneumonitis (inflammation of lung tissue).

Carcinogenic status: Possible cancer hazard See TOXICOLOGICAL INFORMATION, Section 11.

Additional health hazards: See TOXICOLOGICAL INFORMATION, Section 11.

Potential environmental effects: See ECOLOGICAL INFORMATION, Section 12.
SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

</table>

SECTION 4 - FIRST AID MEASURES

Inhalation: Immediately remove person to fresh air. If breathing has stopped, give artificial respiration. Consult a physician.

Skin contact: Remove contaminated clothing. Wash affected areas with soap and water. If irritation persists, seek prompt medical attention.

Eye contact: Immediately flush eye(s) with plenty of water. If irritation persists, seek prompt medical attention.

Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. Consult a physician.

Notes For Physician: Treat symptomatically.

SECTION 5 - FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability: Combustible liquid and vapour. Will ignite when exposed to heat, flame and other sources of ignition. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure. Product may float, and be re-ignited at the water's surface. Vapours may be heavier than air and may collect in confined and low-lying areas.

Oxidizing properties: None known.

Explosion data: Sensitivity to mechanical impact / static discharge: Not expected to be sensitive to mechanical impact. May be sensitive to static discharge.

Suitable extinguishing media: Dry chemical, foam, carbon dioxide and water fog. Do not use water jet, as this may spread burning material.

Special fire-fighting procedures/equipment: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame.

Hazardous combustion products: Carbon oxides; nitrogen oxides (NOx); Hydrogen chloride gas; Phosgene; Chlorine; Polycyclic aromatic hydrocarbons; Sulphur oxides; Phosphorus compounds; other unidentified organic compounds.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions: All persons dealing with the clean-up should wear the appropriate chemically protective equipment. Keep all other personnel upwind and away from the spill/release. Restrict access to area until completion of clean-up. Refer to protective measures listed in sections 7 and 8.

Environmental precautions: Ensure spilled product does not enter drains, sewers, waterways, or confined spaces. For large spills, dike the area to prevent spreading.

Spill response/cleanup: Ventilate area of release. Remove all sources of ignition. Use only non-sparking tools and equipment in the clean-up process. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal (see Section 13). Notify the appropriate authorities as required.

Prohibited materials: Do not use combustible absorbents, such as sawdust.
SECTION 7 - HANDLING AND STORAGE

Safe Handling procedures: Use in a well-ventilated area. Wear suitable protective equipment during handling. Avoid breathing vapours. Avoid contact with skin, eyes and clothing. Keep away from heat, sparks, and open flames. Use proper bonding and grounding techniques when transferring liquid. Avoid contact with incompatible materials. Wash thoroughly after handling.

Storage requirements: Store in a cool, dry, well-ventilated area. Store away from incompatibles and out of direct sunlight. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Inspect periodically for damage or leaks. No smoking in the area.

Incompatible materials: Strong oxidizing agents.

Special packaging materials: Always keep in containers made of the same materials as the supply container.

SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits

<table>
<thead>
<tr>
<th>Ingredients</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>TWA</td>
<td>STEL</td>
</tr>
<tr>

<td>5 mg/m³ (As 'Oil mist, mineral')</td>
<td>N/Av</td>
</tr>
</tbody>
</table>

Ventilation and engineering measures: Use general or local exhaust ventilation to maintain air concentrations below recommended exposure limits.

Respiratory protection: If the TLV is exceeded, a NIOSH/MSHA-approved respirator is advised. Advice should be sought from respiratory protection specialists.

Skin protection: Gloves impervious to the material are recommended. Advice should be sought from glove suppliers.

Eye / face protection: Safety glasses with side-shields or chemical splash goggles. Wear resistant clothing and boots. An eyewash station and safety shower should be made available in the immediate working area.

Other protective equipment: General hygiene considerations: Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink, smoke or use cosmetics while working with this product. Remove and wash contaminated clothing before re-use. Wash with soap and water after handling.

</tbody>
</table>
SECTION 10: STABILITY AND REACTIVITY

Stability and reactivity: Stable under the recommended storage and handling conditions prescribed.

Hazardous polymerization: Hazardous polymerisation does not occur.

Conditions to avoid: Avoid heat and open flame. Ensure adequate ventilation, especially in confined areas.

Materials To Avoid And Incompatibility: See Section 7 (Handling and Storage) for further details.

Hazardous decomposition products: None known, refer to hazardous combustion products in Section 5.

SECTION 11 - TOXICOLOGICAL INFORMATION

Target organs: Eyes, skin, respiratory system, central nervous system, liver and kidneys.

Routes of exposure: Inhalation: YES Skin Absorption: YES Skin & Eyes: YES Ingestion: YES

Irritancy: Mild to moderate skin irritant. Mild eye irritant

Toxicological data: There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data.

</tbody>
</table>

Carcinogenic status: This product contains Chlorinated paraffin. Chlorinated paraffin is classified as carcinogenic by IARC (Group 2B). No other components are classified as carcinogenic by IARC, ACGIH, OSHA or NTP. Use caution when pouring this material. This product can generate a complex mixture of airborne material during heating or in a fire. This combustion material can include carcinogenic polycyclic aromatic hydrocarbons.

Reproductive effects: No information available. Not expected to cause reproductive effects.

Teratogenicity: No information available. Not expected to be a teratogen.

Mutagenicity: No information available. Not expected to be mutagenic in humans.

Epidemiology: None known or reported by the manufacturer.

Sensitization to material: Not expected to be a skin or respiratory sensitizer.

Synergistic materials: None known or reported by the manufacturer.

other important hazards: CNS depression may result from extreme exposures.

Conditions aggravated by overexposure: Pre-existing skin, eye and respiratory disorders.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity: The ecological characteristics of this product have not been fully investigated. The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters. This product contains the following substance which may also be hazardous for the environment: Solvent naphtha (petroleum), light aromatic.

The acute toxicity of solvent naphtha (petroleum), light aromatic is (IUCLID):
- Toxicity to fish - LC50/96h/rainbow trout = 9.22 mg/L
- Toxicity to daphnia - EC50/48h/daphnia = 6.14 mg/L

Mobility: No data is available on the product itself.

Persistence: No data is available on the product itself.
Bioaccumulation potential : No data is available on the product itself.
Other Adverse Environmental effects : No data is available on the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Handle waste according to recommendations in Section 7. Do not cut, weld, drill or grind on or near this container. Empty containers retain residue (liquid and/or vapour) and can be dangerous.

Methods of Disposal : Dispose of in accordance with federal, provincial and local hazardous waste laws.

SECTION 15 - REGULATORY INFORMATION

Labelling:

WARNING! Combustible liquid and vapour. Harmful if inhaled. Harmful if absorbed through the skin. May cause skin irritation. May cause respiratory irritation. May be harmful or fatal if swallowed in large amounts. May be an aspiration hazard. Contains material which may cause cancer, based on animal data.

PRECAUTIONS: Use in a well-ventilated area. Wear suitable protective equipment during handling. Avoid breathing vapours. Avoid contact with skin, eyes and clothing. Keep away from heat, sparks, and open flames. Use proper bonding and grounding techniques when transferring liquid. Avoid contact with incompatible materials. Wash thoroughly after handling. Store in a cool, dry, well ventilated area, away from heat and ignition sources.

FIRST AID: If inhaled, move to fresh air. If breathing stopped, begin artificial respiration. Get medical attention. For skin contact, flush with water for at least 15 minutes, while removing contaminated clothing. If irritation persists, seek prompt medical attention. For eye contact, flush with running water for at least 15 minutes. If irritation persists, seek prompt medical attention. For ingestion, do not induce vomiting. Never give anything by mouth to an unconscious person. Consult a physician.

Refer To Material Safety Data Sheet for further information.

Canadian Information:

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

WHMIS information: Refer to Section 2 for a WHMIS Classification for this product.

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

US Federal Information:

TSCA: All listed ingredients appear on the Toxic Substances Control Act (TSCA) inventory.

SECTION 16 - OTHER INFORMATION

Legend: ACGIH: American Conference of Governmental Industrial Hygienists
